WHO WE ARE

About KSH

KSH Construction is a luxury residential general contractor in coastal San Diego, founded in 2009 by San Diego native Kyle Harrell. We build new custom homes and whole-home remodels for discerning homeowners — and for the designers and architects who trust us to carry out their vision down to the smallest detail.

With roughly fifteen craftspeople in-house — carpenters, electricians, site supervisors, and project coordinators — we keep the work that matters most under one roof. We don't sub out the details that define a home.

06 Scope of Work & Articles of Contract

SELECTED WORK · 01

Coronado Skyline View

CORONADO, CA · WHOLE-HOME REMODEL

A whole-home remodel on the Coronado waterfront, finished to frame the bay and the downtown skyline. Clean lines, custom built-ins, and a calm, light material palette throughout — carried start to finish by our in-house team.

SELECTED WORK · 02

Equestrian Estate

JAMUL, CA · NEW CONSTRUCTION & PROPERTY

A ground-up new home and full property transformation on a Jamul equestrian estate. River-rock columns, board-and-batten siding, and drought-smart landscaping give the home a grounded, timeless presence on the land.

SELECTED WORK · 03

Solana Kitchen & Bar

SOLANA BEACH, CA · KITCHEN & BAR REMODEL

A kitchen and bar remodel anchored by a backlit natural-stone bar and a warm walnut top — built for entertaining. Custom cabinetry and quiet, careful detailing make it the room everyone gathers in.

Plus our full in-house crew — carpenters, electricians, and site leads who keep the work that defines a home under one roof.

WHAT WE DO

Our Capabilities

01

Expert Craftsmanship

In-house carpenters and electricians handle the details that define a home — the work most builders sub out.

02

Designer Partnership

We don't design your home; we protect the integrity of your designer's vision down to the smallest detail.

03

Project Management

One team, one schedule, one point of contact — from the first walkthrough to the final handoff.

04

Quality Control

Every detail is inspected, corrected, and held to one standard before it's called done.

05

Transparent Communication

Clear budgets, regular updates, and honest answers. You'll always know where your project stands.

06

Timely Delivery

A pace you can plan around, communicated honestly at every stage of the build.

THE INVESTMENT

Where Your Budget Goes

Scope — by trade division	Estimate
Project Management	\$00,000
Demolition	\$00,000
Rough Carpentry	\$00,000
HVAC / Venting	\$00,000
Plumbing	\$00,000
Electrical	\$00,000
Windows & Doors	\$00,000
Siding / Exterior	\$00,000
Insulation & Drywall	\$00,000
Interior Paint	\$00,000
Flooring	\$00,000
Interior Trim & Millwork	\$00,000
Cabinetry & Hardware	\$00,000
Countertops & Tile	\$00,000
Appliances	\$00,000
Site Services & Cleanup	\$00,000
Total Estimated Investment	\$000,000

Cost-plus estimate — KSH tracks actual cost and applies its fee, so you only pay for what the project actually costs. (Replace the sample figures with your numbers.)

THE BUILD

Your Project, by Stage

1. Pre-Construction

Planning, permits, final selections, and mobilization — everything locked before the first wall comes down.

\$000,000

2. Construction

Demolition through finishes — framing, systems, millwork, tile, and paint, built by one in-house team.

\$000,000

3. Final Handoff

Punch list, final clean, and a careful walk-through before the keys are yours.

\$000,000

Stage amounts are a share of the total project investment. Replace with your figures.
